DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Cancel claims 1-15 and 18-27.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach a method of operating a switched capacitor integrator having an integration and a sampling phase that transfers sampled charges from reference and input sampling capacitors to a common node, couples the common node and the integration capacitor to transfer substantially all of the sampled charges from the common node to an integration capacitor; in addition, the sampling phase is temporarily non-overlapping relative to the first and the second periods of integration.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
